

Educational Technology Plan

2015-2018

Plan Purpose

Provide a multi-year vision of technology

Provide benchmarks for developing technology services

Act as a guiding document when making budget decisions

Plan Goals 2015-16

Continue planning for projects which are aligned with the goal of universal access to technology

Continue improvement of the Student Information System as the central database from which other systems interact

Ensure the Technology Department is well prepared to support the district's goal of advancing social/emotional learning

Plan Goals 2015-16

Continue to develop systems and protocols in support of protecting student information, including more information to parents on the collection and use of student data

Continue work to ensure the Technology budget reflects and supports district goals

Plan Goals 2016-17

Advocate for staff trained to assist teachers in their technology integration efforts

Budget and sequence a multi-year program for the implementation of hardware capacity within classrooms based on curriculum needs and goals

Implement a plan to purchase and install SMARTboards in the remaining classrooms without boards

Plan Goals 2017-18

Investigate the expansion of a Digital Citizenship program on the secondary level

Work to identify ways to increase access to mobile computing devices at all levels

Expand the wireless infrastructure to support increased mobile device use
