

NEW BUTLER playground

The Daniel Butler Elementary School is building a new playground!

The old playground structure was 22 years old and recently closed after failing a safety inspection. Prior to the closing, plans were already underway to build a new playground. In December the old structure was removed in preparation for the new playground.

Approved playground design

Now we are raising funds to build a safe community playground!
Please help support the New Butler Playground.

**Our Goal:
\$99,000**

**We have raised
\$73,692**
