

**SCHOOL DISTRICT AUTHORIZATION**

**FOR**

**PARTICIPATION IN THE LABBB/EDCO SPECIAL EDUCATION**

**TRANSPORTATION NETWORK -2009-2011**

The School District of BELMONT agrees to be part of the

LABBB/EDCO Special Education Transportation Network for the 2010 and 2011 (9/1/09-8/31/11) school years. It is understood that every school system wishing to participate will identify the specific students to be transported in September 2009 (and appropriate transportation information) to the Collaborative. This information will be part of the bid specifications that will be provided to potential vendors.

It is further understood that the intention of this collaborative bid is to receive a lower price by going out to bid collectively than one district would receive by bidding as an individual district. It is important to acknowledge that students from different districts may be on the same vehicle and as such one district does on a route ("pull a student") has a financial impact on the other member districts.
