

Exchange with the Universidad Iberoamericana (UNIBE)
Santo Domingo, Dominican Republic

This exchange includes bringing newly-graduated elementary school teacher from the Universidad Iberoamericana to Belmont for a period of 10 weeks during the 2010-11 school year. We will seek families to host them during their stay. They will work with teachers in the elementary grades as interns in order to learn from our faculty while sharing their language and culture with our students.

In exchange, we will send a group of Belmont High School students to Santo Domingo to participate in a 2 week seminar at the Universidad Iberoamericana. Coursework will include intensive immersion language study and practice as well as the study of Latin American history and culture and Caribbean eco-systems. The dates have not yet been finalized, but the trip would either occur in April 2011 (around the April vacation week) or in the summer of 2011.

We're submitting this as a preliminary proposal for your consideration and approval. As the specific details of the exchange are finalized with UNIBE, we will bring these forward.

Respectfully submitted,

Dr. George H. Entwistle 3rd

Janice Darias
