

Exhibit B**Human Resources Hiring Update June 6, 2017**

Hiring for the 2017-2018 school year is well underway, with many positions being filled. Principals and Directors are actively interviewing for all open positions.

The hiring process in Belmont is rigorous including multiple interviews, the teaching of sample lessons, and a thorough background check. While Principals and Directors are the hiring managers for positions in their buildings and departments, educators and other staff participate in interview teams and provide input.

The funds from the override allowed the District to begin hiring as soon as March. The most active period of hiring of educators, is between March and May. The fact that the District has stable and secure funding, due to the override, has allowed us to be competitive in attracting educators from diverse backgrounds who are at the top of their field and to begin hiring as soon as March.

A summary of open positions and the hiring status is as follows:
