TO: John P. Phelan, Superintendent of Schools  
FROM: Anthony DiCologero, Director of Finance, Business and Operations  
DATE: March 14, 2017  
RE: Surplus Property

Please see the attached list of equipment that the Technology Department is requesting for the School Committee to declare as surplus, so that it can be disposed. The following information was confirmed with Steven Mazzola, Director of Technology:

- All items on the list either have failed outright and are not worth repairing or no longer meet minimum specifications.
- On average the items are 8-9 years old and have served us well during that time.
- Items listed have been taken out of service over the course of the last 2-3 years and have been replaced as needed.
- The items represent approximately 10% of the district's overall technology equipment inventory.
- All hard drives will be removed and destroyed to prevent any BPS data from being retrieved once the items are disposed.
- Please note that the same procurement laws that require us to purchase items at the lowest possible cost, also require us either to dispose of items at the lowest cost, or to obtain the highest re-sell price for disposal for any items that have a salvage value. For these items, a vendor can remove them at no cost to the district. Steve Mazzola and I agree that this arrangement is in the best interest of the district, as the salvage value of this equipment is low, especially after removing and destroying the hard drives.

I am respectfully recommending and requesting a vote of the Belmont School Committee to declare these items as surplus. Doing so will then allow us to dispose of the items.

Thank you.

cc: Steven Mazzola, Director of Technology
