### Dedication of Buildings and Facilities

The School Committee has sole authority over the naming or re-naming of buildings, interior facilities and grounds of the Belmont Public Schools. Dedication of a school facility is an honor bestowed on an individual whose work or service has contributed significantly to the Belmont Public Schools or to the Belmont community and who is not a school or town employee at the time of the dedication. The School Committee may consult community groups on such dedication.

The School Committee shall develop procedures to implement this policy.
