Three Act Tasks

Developed by Graham Fletcher

Based on “real life”, engaging problems

Act 1: Question

Act 2: Plan

Act 3: Solve

Act One - Questioning

Act Two - Planning

What information to do you need?

Act Two - Planning

From: **Hayley Hutchison**
07/10/2014 13:21:36

Hi Graham,

We hope the information below helps:

The box was created to allow 3 x layers of 12 doughnuts x 12 doughnuts on each layer)

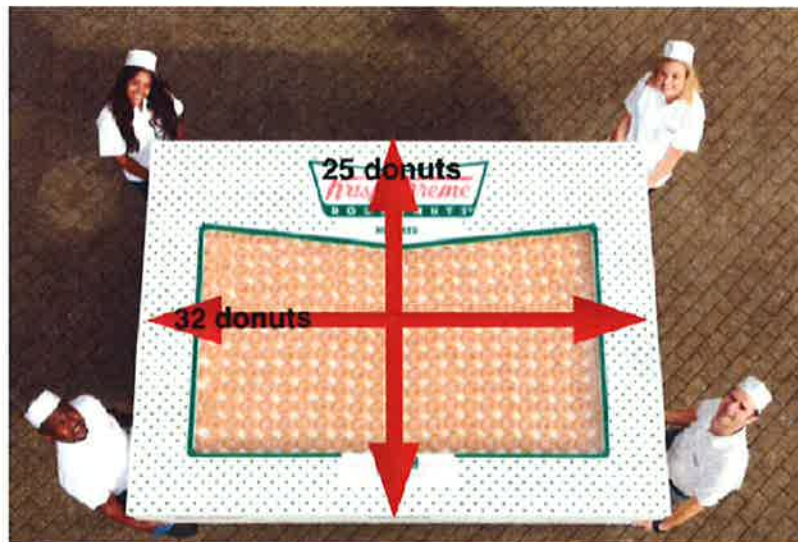

Each doughnut is approximately 89 millimetres in diameter.

The box is 3000 mm x 2300 mm which allows a gap between each doughnut to sit comfortably.

We do not have any schematics to share as they are for internal use only but we wish you all the best with your class.

Kind regards,

Krispy Kreme

Act Three – Solving

Hi Graham,
We hope the information below helps.
The box was created to allow 3 x layers of 800 doughnuts (25 x 32 doughnuts on each layer)
Each doughnut is approximately 69 millimetres in diameter.
The box is 3000 mm x 2300 mm which allows a gap between each doughnut to sit comfortably.
We do not have any schematics to share as they are for internal use only but we wish you all the best with your class.
Kind regards,
Krispy Kreme
