

DRAFT

5005-B Face Coverings

The Belmont Public School District is committed to providing a safe environment in schools during the ongoing COVID-19 pandemic. Maintaining a safe environment is critical to the District's ability to ensure students remain in a full-time classroom learning environment.

According to public health experts, one of the best ways to stop the spread of coronavirus and to keep members of our school community safe is the use of facemasks or face coverings. Therefore, in accordance with guidance and recommendations from the Center for Disease Control (CDC), the Department of Elementary and Secondary Education (DESE) and the Massachusetts Department of Public Health (DPH), **and the Belmont Board of Health, the following requirements are in place when voted by the School Committee. When 5005-A is in effect, 5005-B shall be suspended.**
~~the following requirements are in place until further notice.~~

A face covering that covers the nose and mouth is strongly recommended to be worn by individuals who remain unvaccinated or are otherwise immunocompromised in school buildings, and on school grounds, even when social distancing is observed.

Individuals who are vaccinated are not required to wear a mask, but may do so if desired.

Students and staff returning from 5-day quarantine following a positive COVID test must follow strict mask use, other than when eating, drinking, or outside, and conduct active monitoring for symptoms, through day 10 of exposure.

Masks will be required in all school health offices.

By federal public health order, all students and staff are required to wear a mask on school buses.

This policy will remain in place until rescinded **or suspended** by the School Committee.
